Abnormalities of ocular motility and myotonic dystrophy [letter] (Verhagen and Huygen) 1907

Abnormalities of ocular motility and myotonic dystrophy [reply to letter] (Anastasopoulos *et al.*), 1908

Acetazolamide-responsive episodic ataxia in an Italian family refines gene mapping on chromosome 19p13 (Calandriello *et al.*), 805

Acetylcholine receptor deficiencies and utrophin deficiency (Slater *et al.*), 1513

Action observation and brain activity (Decety *et al.*), 1763

Action tremor in Parkinson's disease (Brown *et al.*), 401

Acute transverse myelitis: a localized form of postinfectious encephalomyelitis (Al Deeb *et al.*), 1115

Adrenoleukodystrophy: phenotype, genetics, pathogenesis and therapy [review] (Moser), 1485

Adrenoleukodystrophy carriers and CNS involvement (Restuccia *et al.*), 1139

Age-related effects of interleukin-1β on polymorphonuclear neutrophil-dependent increases in blood–brain barrier permeability in rats (Anthony *et al.*), 435

Akinetic parkinsonism and cerebellar activity during hand movements (Rascol *et al.*), 103

Akinetopsia and speechreading (Campbell *et al.*), 1793

Altered patterns of cerebral activity during speech and language production in developmental stuttering: an $H_2{}^{15}O$ positron emission tomography study (Braun *et al.*), 761

Alzheimer's disease, attentional deficits (Buck *et al.*), 1229
familial (Fox *et al.*), 491

Amnesia, after anoxic encephalopathy (Broman *et al.*), 417
following anterior communicating artery aneurysm amnesia (Diamond *et al.*), 1015
retrograde, temporofrontal junction involvement (Kroll *et al.*), 1377

Amputation in childhood, and phantom limbs (Melzack *et al.*), 1603

Amusia following stroke (Griffiths *et al.*), 785

Amyloid precursor protein immunoreactivity in multiple sclerosis (Ferguson *et al.*), 393

Amyotrophic lateral sclerosis, and phenotypic heterogeneity (Andersen *et al.*), 1723

Anoxic encephalopathy causing amnesia (Broman *et al.*), 417

Anterior communicating artery aneurysm amnesia (Diamond *et al.*), 1015

Anti-GM1 antibody effect on saltatory conduction axons (Hirota *et al.*), 2159

The application of multifactorial cluster analysis in the staging of plaques in early multiple sclerosis: identification and characterization of the primary demyelinating lesion (Gay *et al.*), 1461

Apraxia in Parkinson's disease, progressive supranuclear palsy, multiple system atrophy and neuroleptic-induced parkinsonism (Leiguarda *et al.*), 75

Ataxia, autosomal dominant cerebellar, type I (Abele *et al.*), 0000
episodic type 2, gene mapping (Calandriello *et al.*), 805
Friedreich's, genotype and phenotype (Schöls *et al.*), 2131

Attention and stimulus characteristics determine the locus of motor-sequence encoding: a PET study (Hazeltine *et al.*), 123

Attentional deficits in Alzheimer's disease (Buck *et al.*), 1229

Auditory deficits following right hemisphere infarction (Griffiths *et al.*), 785

Autosomal dominant cerebellar ataxia type I: nerve conduction and evoked potential studies in families with SCA1, SCA2 and SCA3 (Abele *et al.*), 2141

Axonal conduction blocked by nitric oxide donors (Redford *et al.*), 2149

Axonal damage in acute multiple sclerosis lesions (Ferguson *et al.*), 393

BB-1101 treatment in experimental autoimmune neuritis (Redford *et al.*), 1895

Behavioural consequences of experimental demyelination (Jeffery and Blakemore), 27

Benzodiazepine receptors in cortical development malformations (Richardson *et al.*), 1961

The bilateral reach-to-grasp movement of Parkinson's disease subjects (Castiello and Bennett), 593

Biotechnological agents for the immunotherapy of multiple sclerosis: principles, problems and perspectives [review] (Hohlfeld), 865

Blindsight in hemispherectomized patients as revealed by spatial summation across the vertical meridian (Tomaiuolo *et al.*), 795

Blindsight in man and monkey [review] (Stoerig and Cowey), 535

Blindsight, testing (Barton and Sharpe), 681

Blink reflex affected by tegmental lesion (Aramideh *et al.*), 1685

Blood–brain barrier, and interleukin-1β in rats (Anthony *et al.*), 435
and granulocyte-macrophage colony-stimulating factor (McLay *et al.*), 0000

Blood flow and autoregulation in somatic and autonomic ganglia: comparison with sciatic nerve (McManis *et al.*), 445

Blood flow, sural nerve, in polyneuropathies (Theriault *et al.*), 1131

Botulinum toxin does not reverse the cortical dysfunction associated with writer's cramp: a PET study (Ceballos-Baumann *et al.*), 571

Botulinum toxin in idiopathic focal dystonia (Naumann and Reiners), 409

Brain activity during observation of actions: influence of action content and subject's strategy (Decety *et al.*), 1763

Brain damage in anterograde amnesia (Broman *et al.*), 417

Brain dominance in infants (Chiron *et al.*), 1057

Brain function after brain lesions (Kapur), 1263; (Ovsiew), 1261

Brain measurement (Sisodiya and Free), 271

Brain size and gyral patterns in humans (Bartley *et al.*), 257

Cancer of the lung with paraneoplastic cerebellar degeneration (Mason *et al.*), 1279

Cancer, small cell lung, and limbic encephalitis (Alamowitch *et al.*), 923

Carotid artery disease, and hand palsy (Timsit *et al.*), 2251

Carotid endarterectomy, followed by cerebral microembolism (Levi *et al.*), 621

Hereditary cerebral haemorrhage with amyloidosis—Dutch type, mortality (Bornebroek *et al.*), 2243
Hereditary demyelinating neuropathy of infancy: a genetically complex syndrome (Tyson *et al.*), 47
Hereditary demyelinating neuropathy of infancy: a genetically complex syndrome [letter] (Gambardella *et al.*), 2113
Hereditary demyelinating neuropathy of infancy: a genetically complex syndrome [reply to letter] (Tyson *et al.*), 2114
Hereditary motor and sensory neuropathy, and chromosome 17p11.2 duplication (Thomas *et al.*), 465
type 2 compared to chronic idiopathic axonal neuropathy (Teunissen *et al.*), 955
Herpes simplex virus vectors and CNS (Kennedy), 1245
Hippocampal AMPA and NMDA mRNA in temporal lobe epilepsy (Mathern *et al.*), 1937
Hippocampal sclerosis, and temporal lobe epilepsy (Koepp *et al.*), 1865
Human hippocampal AMPA and NMDA mRNA levels in temporal lobe epilepsy patients (Mathern *et al.*), 1937
Human immunoglobulin ameliorates rat experimental autoimmune neuritis (Gabriel *et al.*), 1533
Huntington's disease, cognitive deficit prediction (Bäckman *et al.*), 2207
and central motor processing (Bartenstein *et al.*), 1553
and disgust recognition (Gray *et al.*), 2029
and dopaminergic markers (Ginovart *et al.*), 503
and movement control (Weeks *et al.*), 1569
Hypersomnia, idiopathic (Bassetti and Aldrich), 1423
Hyperventilation, and posture control (Sakellari *et al.*), 1659
excitability changes in axons (Mogyoros *et al.*), 317
Hypoglycaemia-induced cognitive impairments (Smid *et al.*), 1041

Ictal hyperperfusion and temporal lobectomy outcome (Ho *et al.*), 1921
Ictal semiology in hippocampal versus extrahippocampal temporal lobe epilepsy (Gil-Nagel and Risinger), 183
Ictal SPECT in supplementary sensorimotor area epilepsy (Laich *et al.*), 855
Identification and sizing of the GAA trinucleotide repeat expansion of Friedreich's ataxia in 56 patients: clinical and genetic correlates (Lamont *et al.*), 673
Idiopathic focal dystonia: a disorder of muscle spindle afferent processing? (Grünewald *et al.*), 2179
Idiopathic hypersomnia: a series of 42 patients (Bassetti and Aldrich), 1423
Imaging and epilepsy [review] (Duncan), 339
Immunoglobulin, human, for rat experimental autoimmune neuritis (Gabriel *et al.*), 1533
Immunotherapy of multiple sclerosis (Hohlfeld), 865
Impaired cortico-bulbar tract projections in dysarthria due to hemispheric stroke: functional testing using transcranial magnetic stimulation (Urban *et al.*), 1077
Impaired recognition of disgust in Huntington's disease gene carriers (Gray *et al.*), 2029
Inclusion body myositis, familial (Sivakumar *et al.*), 653
Increased immunoreactivity to two overlapping peptides of myelin proteolipid protein in multiple sclerosis (Greer *et al.*), 1447
An inflammatory, familial, inclusion body myositis with autoimmune features and a phenotype identical to sporadic inclusion body myositis: studies in three families (Sivakumar *et al.*), 653
Influences of muscle stretch reflexes on voluntary, velocity-controlled movements in spastic paraparesis (Knutsson *et al.*), 1621
Interferon gamma activity in multiple sclerosis (Giovannoni *et al.*), 1
Interictal discharges in acute electrocorticography (Alarcon *et al.*), 2259
Interleukin-1β and blood–brain barrier permeability in rats (Anthony *et al.*), 435
Involvement of spinal recurrent inhibition in spasticity: further insight into the regulation of Renshaw cell activity (Mazzocchio and Rossi), 991
The ipsilateral cerebellar hemisphere is overactive during hand movements in akinetic parkinsonian patients (Rascol *et al.*), 103

Ischaemia, excitability changes in axons (Mogyoros *et al.*), 317
in non-freezing cold nerve injury in rats (Jia and Pollock), 631
Ixodes holocyclus paralysis (Grattan-Smith *et al.*), 1975

Kallmann's syndrome, X-linked, and mirror movements, neurophysiological study (Mayston *et al.*), 1199
X-linked, and mirror movements, PET study (Krams *et al.*), 1217

Lambert–Eaton myasthenic syndrome and lung cancer (Mason *et al.*), 1279
Language acquisition with right hemisphere (Vargha-Khadem *et al.*), 159
The late blink reflex response abnormality due to lesion of the lateral tegmental field (Aramideh *et al.*), 1685
Learning manual pursuit tracking skills in patients with Parkinson's disease (Soliveri *et al.*), 1325
Limbic encephalitis and small cell lung cancer: clinical and immunological features (Alamowitch *et al.*), 923
Limbs, phantom (Melzack *et al.*), 1603
Lipreading in akinetopsia (Campbell *et al.*), 1793
Local human sural nerve blood flow in diabetic and other polyneuropathies (Theriault *et al.*), 1131
Localization of the motor hand area to a knob on the precentral gyrus: a new landmark (Yousry *et al.*), 141
Locomotor deficits induced by experimental spinal cord demyelination are abolished by spontaneous remyelination (Jeffery and Blakemore), 27
Long-latency reflexes of hand muscles in idiopathic focal dystonia and their modification by botulinum toxin (Naumann and Reiners), 409
Lung cancer with paraneoplastic cerebellar degeneration (Mason *et al.*), 1279

Magnetic resonance imaging, and epilepsy (Duncan), 339
criteria for multiple sclerosis (Barkhof *et al.*), 2059
in multiple sclerosis (Silver *et al.*), 1149
Magnetic resonance spectroscopy and epilepsy (Duncan), 339
Magnetization transfer contrast MRI in multiple sclerosis (Silver *et al.*), 1149
Matrix metalloproteinase inhibitor in experimental autoimmune neuritis (Redford *et al.*), 1895
Memoria retrieval, temporofrontal junction involvement (Kroll *et al.*), 1377
Memory and executive functions in amnesic

and non-amnesic patients with aneurysms of the anterior communicating artery (Diamond *et al.*), 1015
Memory impairment in early multiple sclerosis (Pelosi *et al.*), 2039
Merging of oculomotor and somatomotor space coding in the human right precentral gyrus (Iacoboni *et al.*), 1635
Metabolic asymmetry, prefrontal, and cognitive impairment (Jokeit *et al.*), 2283
Metabolic correlates of pallidal neuronal activity in Parkinson's disease (Eidelberg *et al.*), 1315
Metabolism of Parkinson's disease and normal ageing (Moeller and Eidelberg), 2197
Microiontophoretic application of serotonin (5HT)-1B/1D agonists inhibits trigeminal cell firing in the cat (Storer and Goadsby), 2171
Micturition, brain control of (Blok *et al.*), 111
Migraine, and experimental sumatriptan (Storer and Goadsby), 2171
and photophobia (Drummond), 1857
Migraine-like headache with pleocytosis (Gómez-Aranda *et al.*), 1105
Mirror movements in X-linked Kallmann's syndrome: I. a neurophysiological study (Mayston *et al.*), 1199
Mirror movements in X-linked Kallmann's syndrome: II. a PET study (Krams *et al.*), 1217
Mitrochondrial encephalomyopathy with lactic acidosis and stroke-like episodes, molecular pathology (Chinnery *et al.*), 1713
Miyoshi-type distal muscular dystrophy: clinical spectrum in 24 Dutch patients (Linssen *et al.*), 1989
Molecular pathology of MELAS and MERRF: the relationship between mutation load and clinical phenotypes (Chinnery *et al.*), 1713
Mortality from hereditary cerebral haemorrhage with amyloidosis—Dutch type: the impact of sex, paternal transmission and year of birth (Bornebroek *et al.*), 2243
Motion-blindness and speechreading (Campbell *et al.*), 1793

Procedural learning and the cerebellum (Molinari *et al.*) 1753
Programming of a movement sequence in Parkinson's disease (Weiss *et al.*), 91
The progress of cognitive decline in multiple sclerosis: a controlled 3-year follow-up (Kujala *et al.*), 289
Progressive supranuclear palsy, and facial reflexes (Valls-Solé *et al.*), 1877
assessed by proton magnetic resonance spectroscopic imaging (Tedeschi *et al.*), 1541
differentiation (Litvan *et al.*), 65
with apraxia (Leiguarda *et al.*), 75
Proprioceptive control of wrist movements in Parkinson's disease: reduced muscle vibration-induced errors (Rickards and Cody), 977
Proteolipid protein immunoreactivity in multiple sclerosis (Greer *et al.*), 1447
Proton magnetic resonance spectroscopic imaging in progressive supranuclear palsy, Parkinson's disease and corticobasal degeneration (Tedeschi *et al.*), 1541
Pseudomigraine with temporary neurological symptoms and lymphocytic pleocytosis: a report of 50 cases (Gómez-Aranda *et al.*), 1105
Psychosis in temporal lobe epilepsy, and surgical outcome (Reutens *et al.*), 1929
Pursuit and saccades in hemiplegia (Barton and Sharpe), 681
Pursuit tracking skills in Parkinson's disease (Soliveri *et al.*), 1325

Quantitative assessments of elbow flexor muscle performance using twitch interpolation in post-polio patients: no evidence for deterioration (Allen *et al.*), 663

Reach-to-grasp movement of Parkinson's disease (Castiello and Bennett), 593
Reach-to-grasp tasks in Parkinson's disease (Tresilian *et al.*), 1093
Regional cerebral blood flow during food exposure in obese and normal-weight women (Karhunen *et al.*), 1675
Regional cerebral blood flow throughout the sleep–wake cycle: an $H_2{}^{15}O$ PET study (Braun *et al.*), 1173
Regional hippocampal [^{11}C]flumazenil PET in temporal lobe epilepsy with unilateral and bilateral hippocampal sclerosis (Koepp *et al.*), 1865
Remyelination of spinal cord (Jeffery and Blakemore), 27
Renshaw cell activity regulation (Mazzocchio and Rossi), 991
Reorganization of motor output in the non-affected hemisphere after stroke (Netz *et al.*), 1579
Responses to cued signals in Parkinson's disease: distinguishing between disorders of cognition and of activation (Wascher *et al.*), 1355
Responsiveness of the trigeminovascular system to nitroglycerine in cluster headache patients (Fanciullacci *et al.*), 283
Results of surgical treatment in temporal lobe epilepsy with chronic psychosis (Reutens *et al.*), 1929
Retrieval of old memories: the temporofrontal hypothesis (Kroll *et al.*), 1377
Retrograde amnesia, temporofrontal junction involvement (Kroll *et al.*), 1377
A review of paroxysmal hemicranias. SUNCT syndrome and other short-lasting headaches with autonomic feature, including new cases [review] (Goadsby and Lipton), 193
The right brain hemisphere is dominant in human infants (Chiron *et al.*), 1057
Ring chromosome 20 and nonconvulsive status epilepticus: a new epileptic syndrome (Inoue *et al.*), 939
Roussy–Lévy syndrome (Thomas *et al.*), 465

S100β-specific T cells in multiple sclerosis (Schmidt *et al.*), 1437
Schizophrenia, and frontal–striatal deficits (Pantelis *et al.*), 1823
Schizophrenic passivity phenomena (Spence *et al.*), 1997
Sensitivity of contrast enhanced MRI in multiple sclerosis: effects of gadolinium dose, magnetization transfer contrast and delayed imaging (Silver *et al.*), 1149
Sensory ataxic neuropathy variant (Gemignani *et al.*), 379; (van Dijk *et al.*), 380
Sequencing in Parkinson's disease (Weiss *et al.*), 91
Sequencing locus (Hazeltine *et al.*), 123
Serotonin (5HT)-1B/1D agonists in experimental migraine (Storer and Goadsby), 2171
Severe anterograde amnesia with onset in childhood as a result of anoxic encephalopathy (Broman *et al.*), 417
Single photon emission computed tomography and epilepsy (Duncan), 339
Skeletal muscle metabolism in myotonic dystrophy: a ^{31}P magnetic resonance spectroscopy study (Barnes *et al.*), 1699
Sleep disorders (Bassetti and Aldrich), 1423
Sleep–wake cycle, and regional cerebral blood flow (Braun *et al.*), 1173
Slow sodium-dependent potential oscillations contribute to ectopic firing in mammalian demyelinated axons (Kapoor *et al.*), 647
Small cell lung cancer, paraneoplastic cerebellar degeneration and the Lambert–Eaton myasthenic syndrome (Mason *et al.*), 1279
and limbic encephalitis (Alamowitch *et al.*), 923
Smooth pursuit and saccades to moving targets in blind hemifields: a comparison of medial occipital, lateral occipital, and optic radiation lesions (Barton and Sharpe), 681
Sodium-dependent potential oscillations and ectopic firing in demyelinated axons (Kapoor *et al.*), 647
Space coding in right precentral gyrus (Iacoboni *et al.*), 1635
Space-based and object-based visual attention: shared and specific neural domains (Fink *et al.*), 2013
Spasmodic torticollis, and postural control (Lekhel *et al.*), 583
Spastic paraparesis in velocity-controlled voluntary movement (Knutsson *et al.*), 1621
Spasticity, and spinal recurrent inhibition (Mazzocchio and Rossi), 991
Spatial- and object-based attentional deficits in Alzheimer's disease: relationship to HMPAO-SPECT measures of parietal perfusion (Buck *et al.*), 1229
Spatial and temporal auditory processing deficits following right hemisphere infarction: a psychophysical study (Griffiths *et al.*), 785
Speech after left hemispherectomy (Vargha-Khadem *et al.*), 159
Speech and language production in stuttering (Braun *et al.*), 761
Speechreading in the akinetopsic patient, L.M. (Campbell *et al.*), 1793

Spinal cord demyelination behavioural deficits (Jeffery and Blakemore), 27
Spinal motor and corticospinal neuron activation (Edgley *et al.*), 839
Spinal recurrent inhibition in spasticity (Mazzocchio and Rossi), 991
Sporadic inclusion body myositis (Sivakumar *et al.*), 653
Stability of reach-to-grasp movement patterns in Parkinson's disease (Tresilian *et al.*), 2093
Statistical parametric mapping in epilepsy (Richardson *et al.*), 1961
Steele–Richardson–Olszewski syndrome (Litvan *et al.*), 65
Sternocleidomastoid muscle, corticomotor representation (Thompson *et al.*), 245
Stimulation over the human supplementary motor area interferes with the organization of future elements in complex motor sequences (Gerloff *et al.*), 1587
Strength change in post-polio syndrome (Allen *et al.*), 663
Stretch reflex influence on velocity-controlled voluntary movements (Knutsson *et al.*), 1621
Striatal function in multiple system atrophy and Parkinson's disease (Antonini *et al.*), 2187
Stroke, and motor dysfunction (Classen *et al.*), 605
and motor output reorganization (Netz *et al.*), 1579
auditory deficits (Griffiths *et al.*), 785
with isolated hand palsy (Timsit *et al.*), 2251
predictors (Levi *et al.*), 621
Stroke-caused hemiplegia and pedalling (Brown *et al.*), 825
Stroke-related dysarthria, and cortico-bulbar tract projections (Urban *et al.*), 1077
The structural components of music perception: a functional anatomical study (Platel *et al.*), 229
A study of the performance of patients with frontal lobe lesions in a financial planning task (Goel *et al.*), 1805
Stuttering, and brain activity (Braun *et al.*), 761
Sumatriptan in experimental headache (Storer and Goadsby), 2171
SUNCT syndrome (Goadsby and Lipton), 193
Supplementary motor area and complex motor sequences (Gerloff *et al.*), 1587
Supplementary sensorimotor area epilepsy: seizure localization, cortical propagation and subcortical activation pathways using ictal SPECT (Laich *et al.*), 855
Sural nerve blood flow in polyneuropathies (Theriault *et al.*), 1131

T cell response to S100β and myelin basic protein in multiple sclerosis (Schmidt *et al.*), 1437
Technical considerations of electromyographic tongue muscle recordings using transcranial magnetic stimulation [reply to letter] (Urban *et al.*), 1911
Tegmental blink reflex abnormality (Aramideh *et al.*), 1685
Temporal lobe epilepsy, and hippocampal AMPA and NMDA mRNA (Mathern *et al.*), 0000
hippocampal versus extrahippocampal (Gil-Nagel and Risinger), 183
with chronic psychosis, surgical treatment (Reutens *et al.*), 1929
with hippocampal sclerosis (Koepp *et al.*), 1865
with hypometabolism and cognitive impairment (Jokeit *et al.*), 2283
Temporal lobe in olfaction (Jones-Gotman *et al.*), 1845
Temporal lobe seizure, perfusion patterns (Ho *et al.*), 1921
The temporal variant of frontotemporal dementia (Edwards-Lee *et al.*), 1027
Tick paralysis (Grattan-Smith *et al.*), 1975
Tongue muscle recordings using transcranial magnetic stimulation (Maloney *et al.*), 1910
Tongue muscle recordings using transcranial magnetic stimulation (Urban *et al.*), 1911
Tonic vibration reflex in dystonia (Grünewald *et al.*), 2179
Torticollis, spasmodic, and postural control (Lekhel *et al.*), 583
Transcranial Doppler detected cerebral microembolism following carotid endarterectomy: high microembolic signal loads predict postoperative cerebral ischaemia (Levi *et al.*), 621
Transcranial magnetic stimulation, for cortico-hypoglossal projections (Maloney *et al.*), 1910; (Muellbacher and Mamoli), 1909
for tongue muscle recordings (Urban *et al.*), 1911
Trigeminal autonomic cephalgias (Goadsby and Lipton), 193
Trigeminovascular system and cluster headache (Fanciullacci *et al.*), 283
Tumour necrosis factor-α processing inhibitor in experimental autoimmune neuritis (Redford *et al.*), 1895
Twitch interpolation in post-polio syndrome (Allen *et al.*), 663

Urinary neopterin excretion in multipie sclerosis (Giovannoni *et al.*), 1
Utrophin abundance is reduced at neuromuscular junctions of patients with both inherited and acquired acetylcholine receptor deficiencies (Slater *et al.*), 1513

Vibration-induced movement errors in Parkinson's disease (Rickards and Cody), 977
Viral vectors and CNS gene therapy (Kennedy), 1245
Visual acuity impairment and otolith–ocular reflex dysfunction (Lempert *et al.*), 1005
Visual attention, space- and object-based (Fink *et al.*), 2013
Visual imagery, and neglect (Coslett), 1163
and occipital lesions (Butter *et al.*), 217
Visual neglect in the monkey: representation and disconnection (Gaffan and Hornak), 1647
Visual stimuli processing mechanisms (Fink *et al.*), 1779
Visual system of man and monkey (Stoerig and Cowey), 535
Visuospatial attention localization (Nobre *et al.*), 515

Which clinical features differentiate progressive supranuclear palsy (Steele–Richardson–Olszewski syndrome) from related disorders? A clinicopathological study (Litvan *et al.*), 65
Word recognition components (Rumsey *et al.*), 739
Working memory impairment in early multiple sclerosis: evidence from an event-related potential study of patients with clinically isolated myelopathy (Pelosi *et al.*), 2039
Writer's cramp, and botulinum toxin treatment (Ceballos-Baumann *et al.*), 571

X-linked Kallmann's syndrome, and mirror movements (Krams *et al.*), 1217; (Mayston *et al.*), 1199
